Troubleshooting

If you are running into trouble, try some steps:

- 1. Make sure O'Print is **latest version**. Check if "update now" on the bottom center of O'Print panel. If not, you have latest version or press it to update.
- 2. Make sure you can print from windows computer to printer.
- Make sure iOS device and Windows computer are both on the same network or WiFi
- 4. Check any printer be shared

You can find more resource on O'Print Support
